The governor's office phone line is going unanswered, with no opportunity to leave a message.

I was trying to call to respectfully ask that Gov. Cooper authorize the DEQ to IMMEDIATELY initiate public hearings to address the economic development concerns and other concerns, claims and submissions by the Atlantic Coast Pipeline since the close of the original comment period. I ask that he take as firm a stance against the pipeline as he has against offshore drilling.

Both of these proposed projects would lock North Carolina into another generation of fossil fuel use, delaying the shift to more cost-effective and cleaner energy sources. There is no way to build this massive fracked-gas pipeline, which would cross hundreds of rivers, streams and wetlands, without harming our waters & rural communities, and African-American and Native American citizens of eastern North Carolina deserve his utmost effort to protect their water
